

SPITA Telescopic mirror

The benefits of this mirror:

- 1) 2 built-in LEDs on top of the mirror
- 2) mirror remains in set position when in use
- 3) heavy duty vinyl anti-slip handle
- 4) extendable up to 87 cm

With this telescopic mirror you can easily inspect difficult to see or hidden areas thanks to the built-in LED-lights

- *With 2 LEDs on the top of the mirror to illuminate dark places that are difficult to see.*
- *Non-slip vinyl covered handle made of stainless steel.*
- *The mirror stays in any set position, useful for looking behind objects or around a corner.*
- *Works on 2 x CR2032 3V button cells (supplied with package)*
- *Dimension of the mirror 50 x 80mm*
- *Length adjustable from 30cm till maximum 87cm (if extended)*

**A handy product for
all kinds of
maintenance jobs**
